Nurodymai tėvams ir globėjams, kaip kartu su vaiku naudoti šią garso medžiagą

Įvadas– 1-as įrašas

Išmokus raidžių garsus, vaikui bus lengviau mokytis skaityti ir rašyti. Garso įrašai neišmokys raidžių pavadinimų. Pvz., mes sakome "ah", o ne "ay".

Prieš naudodami šią medžiagą, susiraskite ramią vietą.

Atsisėskite šalia vaiko, kad klausydamiesi garso įrašo abu galėtumėte žiūrėti į knygą ar ekraną.

Kiekvienai iš 26-erių abėcėlės raidžių yra skirtas vienas puslapis.

Žiūrėdami į kiekvieną puslapį, išgirsite raidę žymintį garsą.

Pamatysite daiktų, kurių pavadinimai prasideda šia raide, paveikslėlius.

Paklausykite garso, po to išstarkite jį kartu su vaiku.

Padarykite pauzę.

Leiskite vaikui apvesti raidę, pradėdant nuo taško, o po to pagal rodykles. Pakartokite garsą ir paveikslėlių pavadinimus.

Įjunkite garso įrašą ir dar kartą pasiklausykite garso ir žodžių.

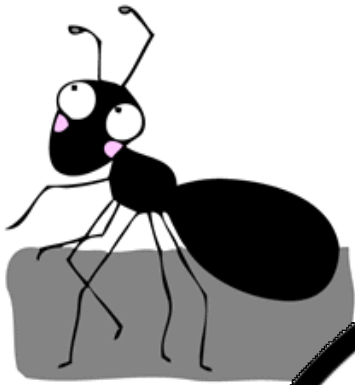

Taip pat būtų naudinga aptarti paveikslėlius, jei jūs ar jūsų vaikas to norėtumėte.

Neskubėkite ir įsitikinkite, kad jūsų vaikas yra pasiruošęs pereiti prie kito garso.

Jums nereikia kaskart perklausyti visų garso įrašų. Geriau klausytis dažniau, bet po truputį.

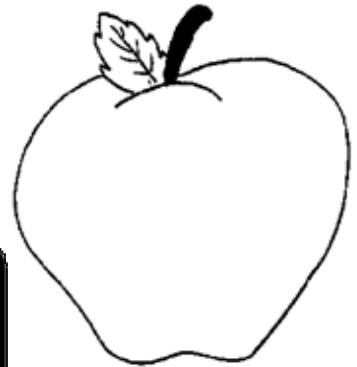

Mes tikimės, kad jums patiks kartu naudotis šia medžiaga.
