INSTRUCCIONES DE USO DE ESTE RECURSO DE AUDIO PARA NIÑOS PARA PADRES Y CUIDADORES

Introducción: Pista 1

Aprender los sonidos de las letras ayudará a su hijo a leer y escribir. Los archivos de audio no enseñan el nombre de las letras; por ejemplo decimos "ah" en lugar de "ay".

Sitúese en un lugar tranquilo para escuchar el audio.

Siéntese al lado de su hijo de manera que ambos puedan ver la pantalla mientras escuchan la grabación.

Hay una página por cada una de las 26 letras del abecedario.

Escuchará el sonido de cada letra mientras mira cada página.

Verá la foto de cosas que empiezan con ese sonido.

Escuche el sonido y repítalo con su hijo.

Haga una pausa.

Deje que el niño dibuje la letra empezando por el punto y siguiendo las flechas. Repita el sonido y los nombres de las fotos.

Reproduzca el archivo de audio y escuche el sonido y las palabras de nuevo.

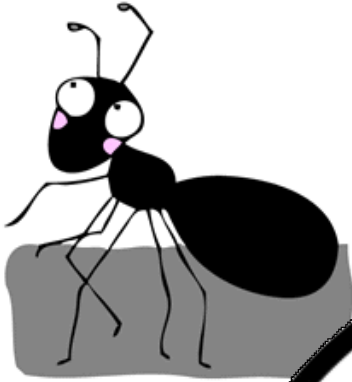

Las fotos también resultan útiles si usted o su hijo desean utilizarlas.

Dedique el tiempo necesario hasta que su hijo esté preparado para pasar al siguiente sonido.

No esperamos que escuche todos los archivos de audio cada vez. A menudo, es mejor hacer un poco menos.

Esperamos que disfruten utilizando este recurso de audio juntos.
