INSTRUCCIONES PARA PADRES Y CUIDADORES A LA HORA DE UTILIZAR ESTE RECURSO DE AUDIO CON UN NIÑO.

Introducción: Pista 1

Aprender que dos o tres letras a veces van juntas y forman un único sonido puede resultarle útil al niño a la hora de leer y escribir.

Busque un lugar tranquilo para utilizar este recurso con su hijo.

Siéntese a su lado para que ambos puedan mirar el libro mientras escuchan la grabación.

Cada página corresponde a un grupo o dígrafo, ya sean vocálicos o consonánticos.

Con cada página podrá escuchar el sonido que corresponde a cada grupo o dígrafo.

En la página habrá ilustraciones de palabras que contienen dicho sonido.

Escuche el sonido y dígalo en voz alta junto con el niño.

Pause la grabación.

Deje que el niño trace las letras comenzando por el punto y siguiendo la dirección de la flecha. Repita el sonido y el nombre de las ilustraciones.

Reproduzca la grabación y vuelva a escuchar el sonido y las palabras.

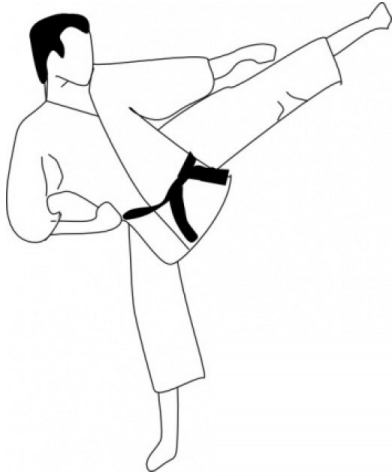

Se recomienda hablar de las imágenes que aparecen en cada página para ayudar al niño a comprender el significado de las palabras.

Dedique tiempo suficiente a cada página, asegurándose de que el niño está listo para pasar a la siguiente palabra.

Es mejor hacer un poco cada día, o tan a menudo como sea posible.

Esperamos que ambos disfruten utilizando este recurso.
